# Eaton 9E Rack

### 1kVA/2kVA/3kVA

9E Rack is available from 1 to 3kVA, all models are delivered with rack kit as standard.

#### Advanced protection for:

- Infrastucture
- · Industrial and Medical IT
- Networking
- Storage
- Telecom

#### **Essential Online Rack UPS**

#### Reliability

- The Eaton 9E Rack constantly monitors power conditions and regulates voltage and frequency thanks to the online double conversion topology.
- The internal bypass allows service continuity in case of internal fault; a maintenance bypass is also available (as an option) for easy replacement of the UPS without powering down critical loads.
- Trust a leading manufacturer with decades of experience and high-quality standards: CE compliance certified by external agency (CB report).

#### **Flexibility**

- With a 0.9 power factor the 9E Rack can power more servers and follows the trend of modern power supplies.
- Backup time can be increased with up to 4 external battery modules (2 & 3kVA models), running systems for hours if necessary.
- Batteries are replaceable from the front panel without removing the UPS from the rack enclosure.

#### Manageability

- Available in 6 languages the 9E Rack LCD display allows easy access to UPS status, measurements and configuration capabilities.
- Easily communicate with the UPS through USB, RS232 serial or over the network with the optional gigabit network card (Network-M3). A RPO port is also available on all models.
- Eaton 9E Rack is compatible with Eaton Brightlayer software suite which permits to integrate all major operating systems, leading virtualization environments and cloud orchestrations tools.

## Eaton 9E Rack

- 1 Multilingual LCD Interface
- 2 1 USB port + 1 serial port
- 3 Slot for Network-M3, INDGW-M2 or Relay-MS cards

Eaton 9E3000IR

- 4 Remote Power Off (RPO) connector
- Output sockets
- Input connection

TECHNICAL SPECIFICATIONS	1000VA		2000VA		3000VA	3000VA	
Rating (VA/W)	1000VA/900W		2000VA/1800W		3000VA/2700W	3000VA/2700W	
ormat	Rack 2U						
Electrical Characteristics							
Technology Technology	On-line double conversion with Power Factor Correction (PFC) system						
Nominal voltage	200/208/220/230/240V						
nput voltage range	190-276V without derating (120-276V with derating)		200-276V without derating (140-276V with derating)		ng)		
nput frequency range	40-70Hz, 50/60Hz autoselection, frequency converter mode						
Connections							
nput	1 IEC C14 (10A)		1 IEC C14 (10A)		1 IEC C20 (16A)		
Outputs	4 IEC C13 (10A) sockets		6 IEC C13 (10A) sockets		6 IEC C13 (10A) sockets + 1 IEC C19 (16A) socket
